

CHINAMEN HELD  
FOR FINK CASERoswell Prisoners Have  
Money Due Them—Fink  
Not Located.

Roswell, N. M., July 14.—There are but four prisoners in the Chaves county jail besides Wong Kung Fong and Chong Goo, the two Chinamen that have been held here as witnesses against Edward M. Fink, a former chief of police of El Paso, who is charged with smuggling them into this country from Mexico. The Chinamen have been held here for 20 months by the United States government. Fink was out on bond here for \$500 and it was forfeited by the court. The same happened at Las Cruces.

The Chinamen are trustees and do the cooking and janitor work and do not want to escape, as the government is allowing them \$1.25 per day each as salary, and allows a day for each to the sheriff for their board. They have not received any of the money yet, but when the government gets ready to deport them to China, they will be independent. At the present time both have \$1512.50 coming to them and their board amounts to \$907.50, making a total so far of \$2,420. They have cost the government.

Fink went to Mexico "to buy mules" almost two years ago and is still buying them. It is supposed that he is the action of the grand jury are John Hart, of Roswell, charged with the larceny of a calf; Charles Ayers, of Kenna, charged with horse stealing; Lee Smith, of Roswell, charged with

blackmail and extortion, and Roy Spriggs, of Kenna, charged with burglary.

RALPH CAMERON IS  
HONORED IN DOUGLAS.

Douglas, Ariz., July 14.—With the blowing of whistles, the tooting of automobile horns, the playing of bands, the hurrahs of the sons of Cochise and the singing of pretty daughters of Arizona, Douglas and Cochise county gave welcome to delegate Ralph Cameron, the father of statehood, in this city today.

When delegate Cameron stepped from the train he was received with cheers from a great crowd which had gathered to get the first glimpse of him since his triumph at the national capitol. He was escorted to an automobile, and a troop of machines and folk as foot, fell in behind him as he made his way up into the city, to the music of bands and the cheers of the people.

The chief exercises were conducted among the trees in the city park. A group of 47 girls, dressed in white, sang songs. Each wore a sash representing a separate state of the union.

Following the reception in the park a big banquet was given at the Gadsden hotel.

USE CINDERS FOR  
ROOFING MATERIAL

Cinders, common, ordinary railroad yard cinders are being used on the Schutz building job as a blinder for the concrete mixture which is being poured on the roof of the new San Francisco street store. Instead of mixing the concrete with rock as was done for the other parts of the building, cinders were substituted in large and unbroken doses. The result is a mixture which is much lighter than the rock concrete and has a color like that of a well smoked ham.

The reason for the use of the cinder concrete on the Schutz building is to give the roof the proper slope in order to allow the water to drain off of it. This can be done with the cinders without pouring a rock concrete roof with a slant which would be there for all time to come.

With the cinder concrete, all that will be necessary to do in case a third story is added later will be to break the cinder concrete which was poured over the rock concrete roof and this roof can then be used as the floor of the third story. To get the cinder concrete coating poured as nearly at the same time as possible, the concrete workers were on the job until late in the night Wednesday.

CONTRACTORS RUSH  
FEWEL BUILDINGStructure Under Contract  
Must Be Completed by  
August 6.

Thirty days has September, April, June and November, also Lee & Woodward to finish the Fewel building. This firm of contractors is trying for a record on the construction of the new building on the corner of El Paso and San Antonio streets. Working a night and day shift the contractors now have the building completed in skeleton form and the interior partitions, the roof and the sidewalks are being built.

The contract which was entered into with major Fewel was to have the building completed, painted and ready to occupy by August 5. Starting on July 6, the construction crews have been racing against time for a record on the building. Not content with the 30 day limit the contracting firm is making an effort to complete the building at least a day ahead of the schedule.

It is estimated that the building will be completed in less than 30 days. Eight days have been consumed in excavating the foundation, pouring the concrete basement, the walls, girders and columns for the basement and first floor.

Wednesday was the eighth day and something breaks the roof will be on before another week has elapsed and the interior finish added before the last week has more than started.

ISSUES PERMIT TO  
BUILD; DAILY RECORD

But one building permit for the construction of a small frame building in East El Paso was issued by Inspector S. B. Haggart Wednesday. The daily record is also small.

## Building Permits.

BRYAN BROS. HURRY  
STORE IMPROVEMENTS

Bryan Bros. are also trying to make a record in the building with the stock exchange. It is a different reason that is causing the changes to be rushed. The insurance policies allow but 15 days for the improvements to be made without the necessity of a new set of policies being written.

The carpenters are rushing everything connected with the work and the new glass front and metal columns are being set as rapidly as possible.

PAINT IMPROVES LOBBY  
OF HOTEL ORNDORFF.

The relation color bears to light is evident in the Hotel Orndorff lobby. Decorators have finished applying the first coat of straw colored paint, in place of the dark mahogany which formerly covered the walls. The lobby is not only lighter, but appears much larger than before.

## RIO GRANDE IS DUSTY.

The Rio Grande is dusty again. The rain of a few days ago was followed by a long and hot day, and the water which trickled down on the Mexican side of the river. But now the sun has dried the river bed so that pedestrians may walk without rubber boots, or bare feet.

London, Eng., July 14.—Dr. Leslie Dodd Ward, of Newark, N. J., vice president of the Prudential Insurance company, died here Wednesday.

## FOOD FACTS.

What an M. D. Learned.

A prominent physician down in Georgia, went through a food experience which he makes public.

"It was my own experience that first led me to advocate Grape-Nuts food and I also know from having prescribed it to convalescents and other weak patients, that it is a wonderful restorative and restorer of nerve and brain tissue, as well as muscle. It improves the digestion and sick patients always gain just as I did in strength and weight, very rapidly."

"I was in such a low state that I had to give up my work entirely and go to the mountains of this state, but two months there did not improve me; in fact I was not quite as well as when I left home. My food did not sustain me and it became plain that I must change, then I began to use Grape-Nuts and in two weeks I could walk a mile without the least fatigue and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life."

"As a physician who seeks to help all sufferers I consider it a duty to make these facts public."

Trial 10 days on Grape-Nuts when the regular food does not seem to sustain the body will work miracles.

## How to Cure Eczema, Pimples and Dandruff.

We desire to say that when we took the agency for ZEMO, we were convinced that it was a valuable remedy for Eczema, pimples and dandruff. Yet, we must frankly admit that Zemo has far exceeded our expectations as a treatment for skin diseases. We are pleased to state that we shall continue the agency as ZEMO has given splendid results wherever recommended. Our customers like Zemo too, because it is a clean vegetable liquid for external use.

ZEMO effects its cures by drawing to the surface of the skin and destroying the germ life that causes the disease, leaving the skin clear and healthy. It does not soil the clothing or linen and can be used freely on infants.

With every purchase we give a booklet on skin diseases explaining in simple words how any person can be cured at home of any form of skin or scalp disease by this clean, scientific remedy—Knoblauch Drug Co., Druggists.

RAINS HELP ALL  
CROPS AT MELROSE

Wells Are Producers—Machinery Arrives—Business Men.

Melrose, N. M., July 14.—This section of the country has been visited with several fine rains, and the heaviest rain of the season has just fallen. Many thousands of acres of crops are growing in fine shape. The acreage of broom corn is large. From present indications the yield will be satisfactory. In the valley adjoining Melrose on the south, there is a large area of fertile land, and an inexhaustible supply of shallow water, from 10 to 30 feet deep. Government experts have pronounced it the best grouping of a large tract easily irrigated by the pumping system they have ever examined.

One well already tested in the valley, delivered 1412 gallons of water per hour. The other wells are being tested. There are four other wells ready to test. New and modern machinery has just arrived from the factory in Ohio for the testing of the wells, and as soon as tested the company will be ready to receive bids for installing the plant, which may be a central electric plant with transmission wires to the different fields.

Melrose has organized a chamber of commerce with Judge J. L. Downing as president. E. B. Peck, secretary, and A. Hammond, treasurer. Already three large companies are asking to submit plans for irrigating the valley and to bid on the bonds.

Miss Nellie J. Hepler and Jacob Ritter were married.

E. J. Howard, of Clovis, a Democrat and attorney of 20 years' standing and Judge J. L. Downing, of Melrose, a Republican, have been advanced as delegates for the constitutional convention.

Judge McPhee dedicates Santa Fe courthouse.

Has Also Presided in First Case Heard in Other courthouses; Roswell Company Incorporates.

Santa Fe, N. M., July 14.—Judge John R. McPhee heard the first case here in the new Santa Fe county courthouse. He also had the honor to try the first case in the new courthouse at Hillsboro, Sierra county, a good many years ago during his first term as judge of the third judicial district, and also in the county, he will also, in all probability, preside in the first case in the new courthouse at Estancia, Torrance county, now nearing completion, as well as in the new courthouse at Tierra Arriba, Rio Arriba county, which is to be completed by fall.

The case heard here in the new courthouse from Rio Arriba county, was that of Pedro A. Sanchez vs. Jesus Romero et al., involving a valuable piece of land, a case between two brothers from Rio Arriba county, over a parcel of land, was decided in favor of the plaintiff, the case being Bernardo Gonzales vs. Sabino Gonzales.
